BRUTE® with Venting Channels

Four integrated venting channels dramatically reduce the force required to remove a full can liner by over 50% compared to traditional containers. Other innovative features include:

- Four can liner cinches that allow for one-step liner retention and eliminate knot tying.
- Fully round ProTouch™ handles provide comfort and secure grip while lifting.
- Molded base grips on bottom of the container for better control during emptying.
- Optional self-draining lid reduces pooling.
