

# Antimicrobial PRODUCTS

from

Increase the level of protection against harmful bacteria and mold. Antimicrobial technologies are built into products during the manufacturing process, yielding an effective defense against the growth of bacteria, molds and fungi. The result?

***Antimicrobial protection that won't wash or wear off!***

## Fortress™ Washdown Hose with Microban®

This innovative new washdown hose with Microban® takes in-plant cleaning to a whole new level. Microban Product Protection inhibits the growth of microorganisms on the hose cover and is engineered to last the life of the hose—it won't wash off or wear away.

The abrasion and oil-resistant cover provides maximum protections against the adverse effects of oil and animal fats as well as resistance to mild cleaning solutions. For hot water service, do not exceed 200°F. Available with or without crimped-on couplers. Sold by the foot.

Stock No.	Size	Temp. Range	Pressure
260-2503	¾" ID	-20 to 200°F	300PSI
260-2570	¾" ID	-20 to 200°F	1000PSI

## Antimicrobial Gaskets & Valve Stems

Discover effective protection against microbial contamination in the most significant breakthrough ever in rubber technology with Elastoguard® rubber components. Sold by each.

- Requires much less costly labor-intensive, routine inspection and sterilization treatment.
- Inhibits the growth of any micro-organism; bacteria, fungi or algae.

## Rubbermaid® Web Foot® Antimicrobial Wet Mops

With an antimicrobial agent locked into the yarn fibers, not just laundered on, you get safe, effective microorganism prevention on the mop head. A balanced blend of cotton and synthetic fibers delivers up to five times the absorbency of cotton mops. Features looped-end, open-twist yarn to reduce linting. Tailband allows the mop to cover more floor area per stroke, saving time, effort, and money. Launderable. Also available in other mop colors. Sold by each.

Stock No.	Band Size	Band Color	Size	Mop Color

440-2954	5"	Red	Large	Orange
440-7144	5"	Red	Large	White

## Rubbermaid® Side Gate Antimicrobial Wet Mop Handle

The hinged side gate eliminates the need to thread the entire mop through the holder. Mops simply slide on and off. Two or three quick flips of the thumb wheel clamps and the mop is securely in place. Mop head contains antimicrobial agents to inhibit growth of bacteria that causes odors and stains. Yellow sanitary plastic mop holder is lightweight, rustproof and built to last. 60" gray fiberglass handle won't chip, peel or fade. Use with 1" headband mops. Also available in other colors. Sold by each.

Stock No.  
440-2950

## Rubbermaid® Clamp Style Antimicrobial Wet Mop Handle

Place a clean mop between the jaws, screw collar tight and mop. When it's time for a change, unscrew the collar and the dirty mop falls free. Sanitary plastic mop head and 60" vinyl-covered aluminum handle is extremely lightweight. Yellow mop head contains antimicrobial agents to inhibit growth of bacteria that causes odors and stains. Use with 5" headband mops. Sold by each.

Stock No.  
440-2948

## Scotch-Brite™ Power Sponge No. 3000

Now, a dual purpose scouring pad on one side and absorbent sponge on the other with 3M™ antimicrobial technology that resists the growth of odor-causing bacteria in the sponge. Stays fresh longer because of antimicrobial protection. Bow-tie shape fits comfortably in hand for easy scouring. Sold by the case. 20/case.

## Antimicrobial Disinfectant Mat™

Head and shoulders above the ordinary sanitizing footbath, Nelson-Jameson's Antimicrobial Disinfectant Mat™ cleans and sanitizes employee footwear while protecting against environmental growth of microorganisms such as *Listeria monocytogenes*, *Salmonella enteritidis* and *E.coli O157:H7*.

What makes this mat different is the antimicrobial agent manufactured into the mat. The bactericidal agent actually diffuses within the rubber to inhibit growth of microorganisms with which it comes in contact, to greatly reduce the chance of bacteria on the edges and underside of the mat. Sold by each.

Stock No.	Size	Color
430-2051	32" x 39"	Yellow

## Walk-N-Clean™ Mat

Stop dirt in its tracks, then simply peel it away. Cleaning pads are mounted on a heavy-duty frame that has non-slip, non-skid backing and is non-toxic. Each pad contains sixty 30" x 24" sheets treated with a microbial agent that provides protection against growth of organisms including mold, mildew and bacteria. Approved by FDA for direct food contact. Walk-N-Clean Mats are sold by each, replacement pads are sold by the case.

Stock No.	Description	Size
430-2940	Single frame w/one 60 sheet pad	31 1/2" x 25 1/2"
430-2945	Double Frame w/two 60 sheet pads	31 1/2" x 51"

### Replacement Pads

Stock No.	Description	Size
430-2949	60 sheets/pad, 4 pads/case	30" x 24"

## Comfort-King™ Anti-Fatigue Mat

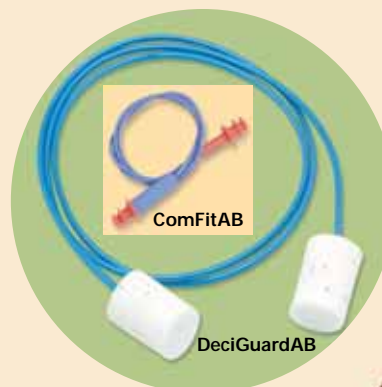

Constructed with an antimicrobial agent to prevent the growth of microorganisms on the mat surface, this superior antifatigue mat also features electro-static dissipative properties. 3/8" thick. Steel gray. Sold by each.
